

Eslam Yasser

Full-Stack Web Developer — Web Development Instructor

📍 Egypt ✉️ eslam9076460@gmail.com ☎️ +20 102 810 3634
🌐 LinkedIn 🐙 GitHub 🌐 Portfolio

Profile

Full-Stack Web Developer (MEAN Stack) and Computer Science student with hands-on experience in building web applications and complete systems. Skilled in Angular, Node.js, and MongoDB, with practical experience in RESTful APIs and real-world projects. Experienced in delivering practical web development sessions and simplifying programming concepts for Computer Science students. Focused on writing clean, efficient code and explaining technical concepts in a simple and clear way.

Education

Bachelor's Degree in Computers and Information *September 2024 – June 2028*
Qena University, Egypt - Qena

- Data Structures, Algorithms, Object-Oriented Programming (C++), Database Systems, Software Engineering, Operating Systems, Computer Networks, Web Development, and Problem Solving Techniques.

Internships

MEAN Stack Web Developer Trainee *January 2026 – May 2026*
NTI - Creativa Innovation Hubs (DEY Initiative), Egypt - Qena

- Completed the intensive "MEAN Stack: Web Developer Career Accelerator" program.
- Trained practically on building scalable full-stack applications using MongoDB, Express.js, Angular, and Node.js.
- Gained hands-on experience in RESTful APIs, asynchronous programming, and responsive UI design.

Skills

- **Frontend Development:** Angular, TypeScript, HTML5/CSS3, Bootstrap
- **Backend Development:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases & Modeling:** MongoDB (NoSQL), SQL Basics, ERD & Database Design
- **Tools & Programming:** C++ (OOP), Data Structures, Git/GitHub, Postman, MVC Architecture

Volunteering

Head of PR Team *Present*
Students for Egypt - Faculty of Computers and Information

Content Data Collector *Present*
ClassMate Platform

Web Development Instructor *June 2026 – Present*
Support Web Program, Qena, Egypt

- Delivered practical sessions covering HTML, CSS and JavaScript for Computer Science students and simplified programming concepts through practical examples.

Projects

Aqario Luxe – Real Estate Management System [\(Live Demo\)](#) *March 2026 – June 2026*

- Developed a scalable real estate platform (Aqario Luxe) using the MEAN stack with clean, maintainable architecture.

- Implemented a freemium model with secure payment integration for user transactions.
- Designed a structured MongoDB database and managed version control using Git for efficient collaboration.

Foodio

February 2026 – March 2026

- Built a food delivery app connecting local restaurants with university students.
- Implemented core features including cart system and favorites management.
- Organized a modular project structure for scalability and maintainability.

Languages

- **Arabic** – Native
- **English** – Conversational

Certificates

- Cybersecurity Academy (Undergraduate Level) – National Telecommunication Institute (NTI) & EG-CERT ([Link](#)) – June 2025
- NASA International Space Apps Challenge – NASA ([Link](#)) – October 2026
- Learn C++ from Scratch – Udemy ([Link](#)) – September 2025
- Python Programming Fundamentals – Creativa TIEC Qena ([Link](#)) – July 2026
- Startup Innovation Lab – Creativa TIEC Qena ([Link](#)) – June 2026
- The 2026 ICPC Egyptian Collegiate Programming Contest (ECPC) Qualifications ([Link](#)) – August 2026
- InnovEgypt Program – Innovation & Entrepreneurship Track ([Link](#)) – August 2026
