

Eslam Yasser

Full-Stack Web Developer — Web Development Instructor

Egypt | eslam9076460@gmail.com | +20 102 810 3634 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Full-Stack Web Developer (MEAN Stack) and Computer Science student with hands-on experience building web applications end to end, from database design to deployment. Skilled in Angular, Node.js, and MongoDB, with practical experience building RESTful APIs and shipping real-world projects such as Aqario Luxe and Foodio. Experienced in delivering practical web development training and simplifying programming concepts for Computer Science students.

Technical Skills

- **Frontend Development:** Angular, TypeScript, HTML5/CSS3, Bootstrap
- **Backend Development:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases & Modeling:** MongoDB (NoSQL), SQL Basics, ERD & Database Design
- **Tools & Programming:** C++ (OOP), Data Structures, Git/GitHub, Postman, MVC Architecture

Professional Experience

MEAN Stack Web Developer Trainee

January 2026 – May 2026

NTI - Creativa Innovation Hubs (DEY Initiative), Egypt - Qena

- Completed the intensive "MEAN Stack: Web Developer Career Accelerator" program, building full-stack applications with MongoDB, Express.js, Angular, and Node.js under mentor supervision.
- Built and consumed RESTful APIs with JWT-based authentication, and applied asynchronous programming patterns (Promises/async-await) to handle data flow between client and server.
- Designed responsive UI components with Angular and Bootstrap, ensuring consistent behavior across desktop and mobile screen sizes.

Web Development Instructor

June 2026 – Present

Support Web Program, Qena, Egypt

- Deliver weekly hands-on sessions in HTML, CSS, and JavaScript to Computer Science students, translating core programming concepts into practical, example-driven exercises.
- Design lesson materials and coding exercises to reinforce classroom concepts and track student progress session over session.

Projects

Aqario Luxe – Real Estate Management System

March 2026 – June 2026

Full-Stack Developer | Live Demo: [aqario-luxe.vercel.app](#)

- Developed a scalable real estate platform (Aqario Luxe) using the MEAN stack with clean, maintainable architecture.
- Implemented a freemium model with secure payment integration for user transactions.
- Designed a structured MongoDB database and managed version control using Git for efficient collaboration.

Foodio – Food Delivery App

February 2026 – March 2026

Full-Stack Developer

- Built a food delivery app connecting local restaurants with university students.
- Implemented core features including cart system and favorites management.
- Organized a modular project structure for scalability and maintainability.

Educational Learning Platform

July 2026 – Present

Full-Stack Developer

- Worked on an educational platform that lets students browse course content and track their learning progress.
- Built core web features using the MEAN stack, following the same RESTful API and MVC architecture used across other projects.
- Structured the MongoDB schema and organized the codebase into reusable modules for easier maintenance and future scaling.

Education

Bachelor's Degree in Computers and Information

September 2024 – June 2028

Qena University, Egypt - Qena

- Data Structures, Algorithms, Object-Oriented Programming (C++), Database Systems, Software Engineering, Operating Systems, Computer Networks, Web Development, and Problem Solving Techniques.

Certifications

- [Cybersecurity Academy \(Undergraduate Level\)](#) – National Telecommunication Institute (NTI) & EG-CERT – June 2025
- [NASA International Space Apps Challenge](#) – NASA – October 2026
- [Learn C++ from Scratch](#) – Udemy – September 2025
- [Python Programming Fundamentals](#) – Creativa TIEC Qena – July 2026
- [Startup Innovation Lab](#) – Creativa TIEC Qena – June 2026
- [2026 ICPC Egyptian Collegiate Programming Contest \(ECPC\) Qualifications](#) – August 2026
- [InnovEgypt Program](#) – Innovation & Entrepreneurship Track – August 2026

Volunteer Experience

Faculty Union Coordinator & National Student Coordinator 2026 – Present

Students for Egypt - Faculty of Computers and Information, Qena University

- Coordinate between the Faculty Union and the student body, and liaise with student representatives from universities across Egypt.

Head of PR Team 2025 – 2026

Students for Egypt - Faculty of Computers and Information

- Led the PR team, planning outreach campaigns and coordinating messaging across faculty events and student committees.

PR Team Member February 2024 – June 2024

Students for Egypt - Faculty of Computers and Information

- Supported outreach and event-promotion activities; ranked 1st among team members for performance that term.

Ambassador 2026 – Present

NTI Ambassadors Team, National Telecommunication Institute

- Represent NTI as a student ambassador, promoting its training programs and initiatives among peers.

Content Data Collector 2025 – Present

ClassMate Platform (classmate.intelakah.com)

- Collect and organize academic content to support the platform's student resource database.

Languages

- **Arabic** – Native
- **English** – Conversational
